Successful bond from SEK

SEK, Swedish Export Credit Corporation, has issued a Euro 1.25 billion 5 year benchmark bond. The transaction was very successful and was quickly subscribed by investors from all over the world.

The bond is SEK's first transaction on the public markets since September, 2007 and SEK's largest bond ever in terms of volume. The bond was sold to investors from different parts of the world.

- SEK has a strong and respected position in the international capital markets which is clearly reflected by the way the transaction was received. It is also very important for the Swedish export industry that SEK's funding remains successful, says Per Åkerlind, CFO at SEK.
